To whom it may concern

**RE: National Seniors and Care360 partnership**

Please accept this letter as confirmation that National Seniors Australia has entered into an agreement with Care360 from February 2019 to explore mutually beneficial research and marketing opportunities.

We believe the Care360 product will be a valuable tool to assist older people and their families in researching and sourcing appropriate care at what is so often an emotional and confusing time of urgent need. As such, the Care360 product and the independent nature of its data is likely to be highly valued by our membership and their families.

National Seniors is looking forward to a fruitful partnership with Care360 and have provided this letter in support of their grant application.

Yours sincerely

Sandra Philpott  
General Manager, Membership and Strategic Partners
